

1. Optical fiber holder type MOUNT-A3.0-45°-0

The optical fiber holder type **MOUNT-A3.0-45°-0** is used in connection with optical fibers type **R-S-A3.0-(3.0)-...** and the color measurement sensor type **SPECTRO-3-FIO-MSM-ANA-VIS**. With the frontend a 45°/0° as well as a 0°/45° color measurement method can be realized. At this, the frontend is in touch with the test object.
