

1. Mounting angle MOUNT-SLU-45°/45°-55 and MOUNT-SLU-60°/60°-55

The assembly brackets **MOUNT-SLU-45°/45°-55** and **MOUNT-SLU-60°/60°-55** are used in connection with the color sensor types **SPECTRO-3-SLU-DIF-JR** and **SPECTRO-3-SLU-UV** and the side light unit **SLU-DIF-16** and **SLU-UV-16**. Especially coatings on glass plates and oil on metal sheets can be proper controlled with this arrangement. The angle to the vertical axis is either 45° or 60° on both sides and the distance to the object surface is around 55mm.
